

TRICARE PLUS

TRICARE Plus is a service-directed primary care empanelment program available at select military treatment facilities (MTFs).

The ability to offer the **TRICARE Plus** program is based on capacity, capability, and mission. Offering TRICARE Plus creates a partnership between the community and the MTF. It enhances our team's readiness skills while improving primary care access to the community. This benefits TRICARE Plus members, clinicians, and active-duty service members.

Enrollment in **TRICARE Plus** guarantees only a primary care provider. Specialty care is neither dependent on nor guaranteed by PLUS enrollment. Based on capacity availability or constraints, specialty care can be accessed by those not enrolled in PLUS, and it may not be available to those who are. The primary mission of Landstuhl Regional Medical Center (LRMC) is to support the health and readiness of our active-duty population and their family members. We value our TRICARE-eligible beneficiaries and strive to increase and improve available services.

OPEN ENROLLMENT
NOV. 1, 2024 - DEC. 15, 2024

THINGS TO KNOW

APPLICANTS

The program may be modified, restricted, or closed to future TRICARE Plus applicants. Current TRICARE Plus members may be removed due to changes in capacity, capability, or mission.

SPECIALTY CLINICS

Enrollment in TRICARE Plus does not guarantee access to local MTF specialty clinics (e.g., cardiology, orthopedics, behavioral health). TRICARE Plus enrollment is not required to make appointments with specialty clinics whose availability status is “open” to the requesting patient’s beneficiary status.

ELIGIBILITY

TRICARE Plus consideration is available for retirees, retiree family members, non-command sponsored Active-Duty Family Members (ADFM), and command sponsored dependent parents.

RESTRICTIONS

The local MTF commander has specified the following restrictions in TRICARE Plus enrollments:

Eligible personnel must apply to participate, and if approved, they will only be guaranteed primary care at the facility to which they are empaneled.

TRICARE Prime eligible command sponsored ADFMs and TRICARE Young Adult Select are not authorized enrollment into the TRICARE Plus program.

The patient should not reside more than 100 kilometers away from enrolled MTF.*

By signing the TRICARE Plus enrollment form, the patient agrees to be seen by their local primary care provider at least once every 12 months.

*Patients who reside outside of 100 kilometers from their local MTF may be enrolled if space is available.

ENROLLMENT PERIOD

The local TRICARE service center will accept applications during the enrollment period from **Nov. 1, 2024, through Dec. 15, 2024.**

PRIORITY

Priority will be given to beneficiaries whose medical needs align with the readiness of the local MTF primary care providers and support staff. An Order of Merit List (OML) will be created for empanelment up to the predetermined capacity.

HOW TO APPLY

Follow LRMC on Facebook for directions on how to apply for the program starting **Nov. 1, 2024.**
